

9-13 August | Las Vegas

GLOBAL HEALTH CONFERENCE & EXHIBITION

Enduring Credit Questions

HIMSS21 educational sessions will be placed in the HIMSS Learning Center post conference. HIMSS will seek enduring credit for CME, CNE, ACPE, LLSA-MOC. Please provide two (2) multiple-choice questions with four (4) answer choices (a-d) and one (1) true/false question that attendees should be able to answer after attending this presentation.

In the appropriate fields, please provide the correct answer and the reason why the answer is correct for each question. In addition, please provide the incorrect answers. Please do not include the answer choices in the question field.

If the correct answer is "all of the above" or "none of the above", please do not simply repeat the answer when explaining why the answer is correct. Instead, provide a reason or a citation indicating why all the answers are accurate or inaccurate.

EXAMPLE - Multiple Choice Questions

Question: A universal goal to improve patient safety is the use of:

Provide one correct answer (250 characters maximum, including spaces):

- A. Surgical pause

Provide reason why the above answer is correct (250 characters maximum, including spaces).

- A. This is one of the main goals of The Joint Commission International Center for Patient Safety.

Provide three incorrect answers below (250 characters maximum each, including spaces):

- B. Patient privacy process
- C. Diagnosis-related groups
- D. Peer review

EXAMPLE - True/False Question (250 characters maximum, including spaces)

Question: When setting up relational databases, the primary key refers to a field or set of fields that uniquely identifies each record stored in the table.

Provide correct answer below (True or False): True

Provide reason why the above answer is correct (250 characters maximum, includes spaces): A primary key (if assigned) is used as a unique identifier for each record in the table.
